

HDpublish x HR4You

Product Brief

Customers of HR4YOU often have WordPress systems where they would like to present their JobOffers. The **HDpublishXHR4You WordPress Plugin** from *HDpublish GmbH* is a standardised module to fulfil exactly those needs.

The plugin has the following core features integrated:

- Import JSON data stream from HR4You
- Cache JSON data to lower load on and frequencies towards the HR4You server
- Language detection in WordPress
- Language dependent output of job offers
- Language dependent field & title displays
- JSON UTF-8 and UTF-16 support
- Filter by fields (i.e. industry, location/city, work type and so on)
- Full text search through all the fields
- Define result sets by pre-filtering Jobs
- HR4You job widget for any page
- HR4You limit jobs widget (i.e. FrontPage)
- HR4You search box widget
